

Muhammed Shabeel

Senior Flutter Developer

+91 6238071870 mshabeel999@gmail.com LinkedIn GitHub Portfolio

Profile Summary

Senior Flutter Developer with 1.5+ years of industry experience building scalable, production-grade mobile applications. Experienced in developing and deploying 15+ live applications across Play Store and App Store. Strong expertise in Flutter, Riverpod, and Clean Architecture with a focus on performance optimization and real-time data handling. Skilled in integrating Firebase, Supabase, REST APIs, and WebSockets for dynamic applications. Passionate about building impactful products and solving real-world problems through efficient and maintainable code.

Technical Skills

Languages: Dart, JavaScript, C, C++

Frameworks: Flutter

State Management: Riverpod, Provider

Backend & APIs: REST APIs, WebSockets, Firebase, Supabase

Databases: Firebase Firestore, Supabase, Hive, SQLite

Tools: Git, GitHub, Postman, Figma, VS Code, Android Studio

Architecture: Clean Architecture (Custom Implementation), MVC

Other Skills: API Integration, Real-Time Data Handling, Payment Integration, Performance Optimization

Experience

Senior Flutter Developer

Mar 2025 – Present

Aurify Technologies

- Developing and maintaining production-level mobile applications using Flutter.
- Built and deployed multiple real-world applications with real-time data handling.
- Worked extensively with Firebase and Supabase for backend integration.
- Implemented WebSocket-based real-time features for live data applications.
- Collaborated with clients to deliver scalable and high-performance solutions.

Flutter Developer Trainee

2024 – 2025

Brototype

- Completed intensive training in Flutter development and software engineering fundamentals.
- Led and contributed to multiple team projects and self-driven applications.
- Gained experience in public speaking, teamwork, and problem-solving.
- Built strong foundation in mobile app architecture and UI/UX principles.

Projects

Remindora – Birthday Reminder Application

- Developed a modern reminder application using Flutter with Supabase backend for real-time data handling.
- Implemented notification-based reminders to ensure timely alerts for important dates.
- Designed clean and minimal UI for smooth user experience.
- **Tech Stack:** Flutter, Supabase

Orovivo – Gold Rate Tracking Application (Client Project)

- Developed a real-time gold rate tracking application for a client (Mac and Ro).
- Integrated live data updates using APIs for accurate gold pricing.
- Implemented gold swapping feature between locations for user convenience.
- Built scalable architecture to handle real-time updates efficiently.

- **Tech Stack:** Flutter, REST APIs, WebSockets

LinkNest – Bookmark Management Application (In Progress)

- Building a local bookmark management app to store and organize links efficiently.
- Implemented direct sharing functionality from other apps into LinkNest.
- Focused on fast local storage and smooth UX for quick access to saved content.
- **Tech Stack:** Flutter, Local Storage (Hive/SQLite)

Aurify Alert – Internal Full-Screen Alert System

- Developing an internal alert system to monitor server failures and display full-screen critical alerts.
- Designed real-time monitoring mechanism for instant failure detection.
- Focused on high visibility UI to ensure alerts cannot be ignored.
- **Tech Stack:** Flutter, Real-Time Monitoring

Key Projects

15+ Production Applications

- Successfully developed and deployed 15+ mobile applications to Play Store and App Store.
- Worked on real-time data apps, payment integrations, and scalable architectures.
- Handled complete app lifecycle from development to deployment.

Education

Bachelor of Computer Applications (BCA)

Manipal University

2025 – Present

Mobile App Development Using Flutter

Prototype, Calicut

2024 – 2025

Higher Secondary - Science (Computer Science)

ALPS International Science Academy, Malappuram

2021 – 2023
